

Community Energy Forum for Policy Progress

Let's take initiative! Tallinn 11./12. March 2020

Brief Overview

The Community Energy Forum is dedicated to renewable energy communities (formally recognized in the EU Clean Energy Package) in Baltic Sea Region (BSR) and its future development.

We will discuss the development of community energy (CE) in our countries. What can national and regional authorities do to encourage and support CE projects through favourable policy?

Reasons to Attend?

1. Expand your network of energy contacts in the Baltic Sea Region.
2. Gain insights into the innovative CE sector and its potential for growth.
3. Use this platform for discussions and debates about CE transnational exchange in the BSR.
4. Promote the concept of CE through the development of favourable policy framework.

Topics of Interest

The potential of CE, its benefits as well as barriers and obstacles present. Possible solutions will be discussed together with the results and findings of the Co2mmunity project. This includes the most up to date analysis of the CE sector so far. Finally we present recommendations for national level policy makers in fostering the development of CE projects.

Who will join?

This transnational CE forum targets national policy makers and governmental institutions. While also opening its doors to actors and organisations active in the development of the CE sector. These include NGOs, municipal representatives and other interested parties.
